## perVestigo

*'...to explore fully'*

PerVestigo is the **Crystal Ball** premier GPS vehicle tracking system. Customers can access **Crystal Ball**, anywhere in the world, at any time, allowing them to track and report live on their fleet. **Crystal Ball** does not require any proprietary software to be downloaded, as it is a true live web based gps tracking system.

PerVestigo includes every fleet tracking feature offered by **Crystal Ball** with more frequent updates and unlimited user licenses. In addition, perVestigo gives you access to the full suite of reports available, including asset management, time sheets and out of hours. Customers can now also keep track of their fleet costs and administration through the perVestigo intelligent asset management tool. Email alerts allow customers to manage and schedule their fleets' insurance, road fund licence, MoT and servicing requirements whilst keeping businesses fully compliant with the law, at all times.

merlin 700

The Merlin 700 GPS tracking Device forms an integral part of the system, and is fitted professionally by our specialist engineers on site, or at a suitable convenient location to minimise downtime.

Full training is provided to ensure that each user gains maximum benefit from the system, and in addition, a comprehensive 'help section' is viewable on the system.

From just £15 per month, perVestigo can take your business to the next level—one that enables your company to take those vital business decisions faster, and with the knowledge to back them up.

**Crystal Ball** tracking systems help businesses to increase productivity and profitability.

†† available as a bolt on with any internet enabled mobile phone

✓ perVestigo fair usage policy - The usage of geofences allocated to any account is expected to be below 100. Excessive geofence allocation and usage above this limit at Crystal Ball's discretion may constitute abuse. Crystal Ball therefore reserves the right to monitor usage, and to apply charges and/or withdraw the geofence feature.

^ only available on google maps
